Technical Skills

Languages: C++, Javascript
Other Skills: React.Js, Node.Js, Express.Js, MongoDB, Appwrite, Tailwind, CSS
Developer Tools: VS Code, Git, Github, Vercel

Projects

VR-World │ *Javascript, ReactJs,Redux Toolkit, Tailwind CSS, ExpressJs,HTML*   **Try it**

- VR-World is designed and developed the frontend interface for a virtual reality game.
- Utilized **Tailwind CSS** for styling, **Redux Toolkit** to manage global state efficiently and **React.**

Visionary-Architects │ *Javascript, ReactJs, BootStrap grid CSS,HTML*   **Try it**

- Built a responsive frontend interface for a web scraping architecture, enabling real-time visualization and management of scraped data
- JavaScript – Implemented dynamic client-side logic and asynchronous data fetching from scraping APIs.
- React.js – Built reusable UI components and managed application state for real-time data updates.
- Bootstrap Grid CSS – Structured responsive layouts for consistent display across devices.
- HTML – Created the foundational structure of UI elements and layout scaffolding.

Personal Portfolio │ *Javascript, ReactJs, Tailwind CSS, Framer Motion*   **Try it**

- Built a fully **responsive** portfolio, ensuring a seamless experience across all devices, from desktops to smartphones.
- Used **Framer Motion** for smooth **transitions** and **animations** that bring the content to life
- Included an **integrated** contact **form** allowing visitors to reach out directly through the website.

Education

Delhi Technological University   **Aug 2023 – July 2027**
BTech in Computer Science and Engineering CGPA:-7.75   *Rohini, Delhi*
